PREMIUM DIVIDEND PORTFOLIO

WHO?

Mole Valley Asset Management offers innovative and bespoke investment services to private clients and intermediaries.

WHAT?

The Premium Dividend Portfolio will invest in 25 companies in the UK and Europe and is designed to give you a steady and growing stream of income. The companies we invest in will demonstrate an ability to pay a consistent, growing dividend throughout the business cycle.

We employ 'layers of confidence' with a specific focus on the balance sheet, prudent accounting principles and the quality of the income streams, to ensure consistency and repeatability over the long-term.

WHY?

Dividends are crucial

Since 1966, dividends have contributed more than 50% of the total return of equity markets.

Compounding is the key to sustainable long-term, investment returns. The philosophy of compounding these dividends provides the framework on which to build a profitable portfolio

Rewarding risk

Portfolio construction reduces the risk by investing in:

- Multiple Sectors
- Larger companies to ensure liquidity
- Equally weighted positions, rebalanced when necessary

RETAIN ACCESS

If you need your money back, no problem – we simply sell the shares and send you the money.

KEY BENEFITS

- Invest in good quality companies
- Consistent, repeatable strategy
- Clear reporting
- Money back usually within a week of receiving a redemption request

FAIR FEES

- No charge for advice
- No entry fees or exit fees
